Re: Support Letter for Mr. Josef Hlousek

Dear Palacky University Endowment Fund,

It is a pleasure to write this letter in support of Mr. Josef Hlousek application to visit and work in our research group on the characterization of a new quantum light source. Mr. Hlousek is a member of Miroslav Jezek's research group at Palacky University in Olomouc. They are experts in the characterization of non-classical light. We are developing a new nonclassical light source, quite different from previous ones. In providing funds for Mr. Hlousek travel and short visit with us we will be able to explain our new system, and instruct him on our spectroscopy techniques. We expect at the conclusion of his visit that he will have the capacity to continue studies on this new system back at the Palacky University, and that we will continue collaborations.

Sincerely,

A handwritten signature in cursive script that reads "Glenn Solomon".

Glenn Solomon
