

Dear Administration of Endowment Fund,

Hello and hope you are doing well.

I am, Zdenek Svoboda, the supervisor of the Ph.D. student, Mr. Javad Sarvestan, support his assertions regarding the demands on endowment fund for his internship to the Lincoln University.

Following his successful international cooperation, I encouraged him to have a collaboration on his Ph.D. thesis, which deals with a unique method for assessment of volleyball spike and aids the coaches and sports scientists for better training programs, with Dr. Mulloy, who is one of the scholars in this topic. According to the agreement conducted between us, the faculty approved his internship and during September 2020, he will travel to the UK. Nevertheless, given the shortage of internship fees for nutrition and some part of communication fees, he is in demands of approximately 65.000CZK for living in the UK.

Hope your supports help him in his internship.

Yours Sincerely,

Zdenek Svoboda, Ph.D.

Assistant professor, Faculty of Physical Culture, Palacký University, Olomouc, Czech Republic.
